THE PEOPLE'S PRESS

FOR 1886.

\$1.50 A YEAR.

The Press entered its thirty-fourth volume on January 1, 1862. Now is the time to subscribe. It will be our endeavor to make the Press more interesting and entertaining than ever.

L. V. E. T. BLUM.

Congress meets December 6th.

A farmer's club of seventeen members was organized at Dulin's school house.

Spotted tongue fever, a very dangerous disease, has made its appearance in Wadesboro, Anson Co.

The State Board of Canvassers of the election will meet in Raleigh on the 26th instead of 23rd of November.

Col. A. Y. Stokes, a very prominent citizen of Virginia, died at his home in Goodrich county. He was a native of this State.

Lieutenant General Sheridan reports that, by the latest count, Uncle Sam has 2,102 officers and 23,946 men for his military servants.

The Roman Catholic cathedral in Allegheny City, Pa., was destroyed by fire on the night of the 12th inst. Loss estimated at \$100,000, fully covered by insurance.

Look Out!—Five dollar notes on the Bank of Mecklenburg are said to be in circulation here. That bank failed several years ago, and the notes resemble U. S. Treasury notes.

The fire in Durham last week destroyed the principal business block with Parrish's large warehouse. Loss estimated at \$300,000, with insurance of \$200,000. The fire is supposed to have originated from a defective flue.

The State auditor has completed work of making out and mailing the vouchers issued for pensions this year, and applicants may call this year at their respective post offices to receive them. There are now 2,127 pensioners, each of whom receives \$14.10 from the annual appropriation of \$30,000.—*News and Observer.*

LYNCHBURG, VA., Nov. 19.—A special from Pulaski to the *Daily Advance* says: George T. Mills last night sold the Foster Falls property, two thousand and one hundred acres of mineral land, to a Philadelphia syndicate for one hundred and fifty thousand dollars. One-third cash. Large iron furnaces will be erected on the property at once.

Here are some statistics of Boston: Population, 363,000, 2,900 liquor saloons—1 saloon to 125 people; 223 churches, with 13 saloons to each church, and 5 saloons to each school; 1 arrest for 121 persons, making three quarters of the crime the result of the liquor traffic; police and criminal expenses, \$2,324,860; 37,250 voters supporting 2,900 saloons—1 saloon to each 12 men; each man pays \$500. The city pays out \$3 for every \$1 received, the license revenue being \$500,000.

STORMS.—Great storms are reported in all directions—in New York, in Pennsylvania, on the great lakes, in the northwest, on the north Atlantic coast, and in the southwest, last week, doing much damage to property. The loss of thirty vessels with thirty-nine lives in the recent storms on the lakes is reported, besides a number of vessels overdue of which no account is had. The destruction of property, principally in shipping, is estimated at over \$600,000.

We notice that the following names have been mentioned in connection with the Speakership of the House: Thomas M. Holt, Speaker last session, Richmond; M. Pearson, Henry E. Fries, A. Leaser, Dr. J. M. Worth and Lee S. Overman. Mr. Pearson was elected as an independent, but will probably act with the Democrats. We are pleased to see the representative from Forsyth among the names.

The House stands: Democrats 55; Republicans 55; Independents 6. It seems most probable that an independent will be elected Speaker, as they hold the balance of power.

At the revival which closed at the Methodist church on Sunday at High Point, 80 persons were converted. 8 have joined the Presbyterian church, 4 the Baptist and 25 the Methodist, with probably more to join.—*Greensboro Workman.*

The Baptist State Convention. WILMINGTON, N. C., Nov. 17.—The North Carolina State Baptist Convention is in session here. Over 300 delegates and visitors are present. Rev. Dr. C. T. Bailey, editor of the *Biblical Recorder*, was elected president. N. B. Broughton and Rev. G. W. Greene were elected secretaries. Reports of the boards show great progress in the membership of the churches and contributions to benevolence.

Death of Ex-President Arthur.

In announcing the death of Ex-President Arthur, who died on the morning of the 18th inst., President Cleveland ordered the closing of the departments on the day of the ex-President's burial, and the White House and department buildings be clothed in mourning for thirty days. Ex-President Arthur had been suffering from kidney troubles for a long time, complicated with other diseases. He died while in sleep from cerebral apoplexy. His remains were taken to Albany for interment.

THE INTERNAL REVENUE.

Internal Revenue Commissioner Miller's annual report shows that during the fiscal year 1886 the revenue of the First New York collection district increased \$205,952.95; those of the second district increased \$29,642; those of the third district increased \$309,033.42; there was a decrease of 12,811.10 in the fourteenth district, an increase of \$42,926.81 in the fifteenth, an increase of \$69,891.59 in the twenty-first, and a decrease of \$11,706.73 in the twenty-eighth. In Connecticut the receipts were \$49,435.65 less than in the preceding year. In the first New Jersey district there was a falling off of \$29,306.77; a decrease of \$130,065.66 in the third, and an increase of \$449,629.03 in the fifth. New York State leads in the number of manufacturers of cigars, with 5,312, using 25,564,265 pounds of tobacco and manufacturing 1,083,212,564 cigars and 881,554,440 cigarette. Pennsylvania comes next, with 5,064 manufacturers, using 16,755,724 pounds of tobacco. Ohio is third and Illinois fourth. In North Carolina, 1,890 distilleries were registered during the year, as compared with 1,590 during the preceding year. In West Virginia, 1,118 distilleries were registered in 1884; in 1886 there were 1,344.

THE PUBLIC SCHOOLS.

The Raleigh correspondent of the Richmond *Dispatch* says that the Superintendent of Public Instruction, Maj. S. M. Finger, is at work on his report which will show exactly the progress made, educationally, in the State in the past year. The expenditures for public instruction have far exceeded those of previous years, and the general character of the work has been more satisfactory in all respects. Over \$800,000, it is estimated, has been expended. The number of public school houses has increased to over 6,000. The direction of special effort now is in the line of lengthening school terms. These have been too short, say three and a half months. The erection of better school houses is another special feature. The public schools are great aids to the higher institutions of learning and the colleges, and every improvement in the first named is at once felt by the latter. The percentages of attendance are much more favorable than formerly.

Big Sale of Railroad Stock.

Quite a ripple of excitement was created in financial circles on Friday and Saturday by the announcement that a syndicate composed of Alfred Sully, Jas. B. Pace, Gen. T. M. Logan and others had bought a controlling interest in the Richmond & Danville Railroad. The syndicate and its friends already owned about 20,000 of the 50,000 shares. On Thursday evening they made a proposition to G. S. Scott, G. F. Baker, H. C. Fahnstock, W. P. Clyde and others who held 25,000 shares in one block, which was accepted, thus paying a price estimated at 225. The cash payment is to be five million dollars, or at the rate of 200, and an amount equivalent to about 30 per cent. to be paid in West Point Terminal securities. This gives the new syndicate 45,000 of the 50,000 shares. There is some speculation as to who will be the officers. The *Dispatch* says while Messrs. Sully, Pace and Logan will be prominent in the control of the line and exercise great influence, it is known that the leading investors are northern men, like the Rockefellers.

The Richmond people hope that this new move will have the effect to cause the removal of the general offices from Washington back to Richmond. —*Greensboro Workman.*

The Baptist State Convention.

WILMINGTON, N. C., Nov. 17.—The North Carolina State Baptist Convention is in session here. Over 300 delegates and visitors are present. Rev. Dr. C. T. Bailey, editor of the *Biblical Recorder*, was elected president. N. B. Broughton and Rev. G. W. Greene were elected secretaries. Reports of the boards show great progress in the membership of the churches and contributions to benevolence.

Prize Stories.

The Youth's Companion maintains its reputation for publishing the best Serial and Short Stories, as well as striking stories of adventure. The next volume will contain the eight prize stories selected as the best from over 5,000 manuscripts sent in competition. The first Serial Story, to appear in January, will be "Blind Avery," in eight chapters, illustrated. Every one will want to read it. If \$1.75 is sent now, it will pay for the paper to January, 1888.

THE CENTURY CO. NEW YORK.

—Mr. Carlisle speaks for his party and for the country when he declares that "the fight against undue, heavy and onerous taxation will go ahead"—*Goldboro Messenger.*

INFORMATION WANTED.—Mr. John C. Kinker, residing at No. 906 East Main Street, Richmond, Va., wishes to ascertain the whereabouts of his brother, H. H. Kinker, who left his home about thirty years ago, and is believed to be living in some portion of North Carolina. Mr. Kinker is anxious to communicate with his brother, and will be thankful if the press of the State would give publicity to the matter.

EXCITEMENT IN TEXAS.

Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of Consumption. A trial bottle of Dr. King's New Discovery was sent him free. Getting relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of Pills and two bottles of the Discovery, he was well and had gained in flesh thirty-six pounds.

TRIAL BOTTLES OF THIS GREAT DISCOVERY FOR CONSUMPTION FREE AT DR. V. O. THOMPSON'S DRUG STORE, WINSTON, N. C.

Next Sunday being the first Sunday in Advent, appropriate services will be held in the Moravian church, morning and night at usual time. Liturgy for first Sunday in Advent, page 35 in Hymn Book, will be used. The choir will sing the usual anthem for the occasion.

The dedication of Centreville Moravian Chapel will take place on next Sunday afternoon at 3 o'clock. Dr. Rondthaler will conduct the services according to the form on page 28 of Hymn Book. This is the third chapel which has been established in Salem and vicinity, within a few years.

We are indebted to Lieut. H. R. Lemly, U. S. A., for a copy of Leslie's Sunday Magazine, containing his article on Salem, N. C. It is well written, and will be read with interest by many. Though oft repeated, a sketch of old Salem seems ever interesting. Two engravings illustrate the article, one representing a Christmas scene in front of the church and also an interior view taken previous to the recent improvements. The other is a view of the cemetery.

Salem Home Sunday School will give a Christmas Dialogue on the evening of December 25th, entitled "Daughter of Judah," by the late Rev. Wm. H. Van Vleck. This is one of the good old pieces, around which cluster the sweetest memories of the past, and will rejuvenate many an old heart during the Christmas festivities.

Elm Street Sunday School will give the well known Cantata "The Night of Glory." This is also popular and will be hailed with delight by the friends of the School.

East Salem Sunday School will also give an entertainment, the particulars of which will be given hereafter.

HIRING PASTURE FOR BEES

A FARM WHERE HONEY IS MADE BY THE WHOLESALE.

A Shrewd Yankee Agent's Device for Getting the American Article on the Queen's Table.

"Did you ever hear of such a thing as a 'farm where honey is made by the wholesale'?" asked a gentleman from Cherry Valley, N. Y., who was waiting at Cobleskill for a train. The New York *Times* reporter, of whom the question was asked, had certainly never heard of anything of the kind, and so informed his questioner.

"I was quite sure you hadn't,"

that's the reason I asked you," said the gentleman. "But I'll tell you the question to every stranger in this neighborhood I happen to meet, for I enjoy the way it puzzles them, and then it always does me good to tell them about the man who hires pasture for bees.

You know, of course, that all through this region hops is the stay of the people. Almost everybody is engaged in growing hops, and I can tell you that I've seen seasons when they wished they weren't. But you don't know, I take it, that at Cherry Valley—historic Cherry Valley, the garden spot of Schoharie—we have probably one of the most extensive hop farms in this or any other country. It is, of course, the greatest bunch of money-making, making, and saving in the world, the excellence of its climate and the endless variety of its honey yielding flowers. There are no longer winters in California, with dearth of flowers, through the want of the climate and the endless variety of its honey yielding flowers. "I am more severely punished than he who is subject to the whip of his own remorse."

Look around the habitable earth, how few know their own good, or how to prize it.

"It is clear that in whatever it is our duty to act, those matters also it is our duty to study."

The first in conversation is truth, the next good sense, the third good humor, and the fourth wit.

That cunning may succeed for the time being is perhaps true; that it will fail in the end is quite true.

Hope without action is a broken staff.

We should always hope for things that are possible and probable.

As the skill of the navigator is not required in a smooth sea so virtue, inactive in prosperity, reveals itself in adversity.

The man who does a good turn to a neighbor is that who will find somebody doing a good turn to him next year.

Such as thy words are, such will thy afflictions be esteemed; and such will thy deeds as thy afflictions, and such thy life as thy deeds.

Sometimes the reward for honesty is far from equal to the homage rendered rascality. We demand honesty, yet too often fail to recompense it.

There is no occupation in which one may so constantly see and realize the presence of an overruling providence as in the cultivation of the earth.

Hope nothing from luck, and the probability is that you will be so pre-armed, so forewarned and forearmed, that all shallow observers will call you lucky.

WISE WORDS.

An error becomes a fault when it is repeated.

Progress is attained by the perfection of the individual.

It is always best to overlook and despise illiberal censure.

Still water becomes corrupt; the running stream is limp.

No man is more severely punished than he who is subject to the whip of his own remorse.

Look around the habitable earth, how few know their own good, or how to prize it.
